ART & LIVING

BRAND & COLLECTION

Art finds its place in everyday life.

In the curve of a vessel, the texture beneath your fingertips,
the warmth of a table set for an evening together.

MARÍA MARÍA creates handmade ceramics and art objects with
sculptural presence and everyday purpose. Each piece is shaped
with attention to proportion, surface and detail, allowing the
character of the material and the touch of the hand to remain
visible.

The collection unfolds through a shared creative process. Ideas are
exchanged, forms explored and individual perspectives brought
into conversation. Beauty and function emerge together.

Sculptural centrepieces.

A flowing ivory silhouette and an expressive ivory-and-black surface. Forms that bring artistic presence to a table, console or shelf.

The art of everyday living.

Two charcoal forms, each with a distinct surface. Rounded silhouettes and rich textures bring sculptural character to an everyday setting.
